SETTLEMENT OF ANTHRACITE STRIKE NEARS

LYNETT PLAN MAY BE TAKEN AS PEACE PACT

JOINT CONFERENCE OF MINERS AND OPERATORS TO BE CALLED

IF RESUMED, THE SAME WILL PROBABLY BE HELD IN NEW YORK CITY

Scranton, Pa., Jan. 22.—(UP)—President John L. Lewis of the United Mine Workers of America, in conference here with E. J. Lynett, publisher of the Scranton Times, today accepted as a basis for negotiations a plan of strike settlement proposed by Lynett.

He agreed to join the operators in a request to Chairman Alvin Markle of the joint conference of miners and operators, to call the conference together again. The conference if resumed probably would meet in New York City.

Operators were said to have virtually accepted the same proposition. Lewis told Lynett that "the United Mine Workers stand willing to enter again into joint negotiations at the earliest possible moment if the operators' representatives occupy the same viewpoint."

The mine operators are said virtually to have accepted the plan advanced by Lynett and predictions were made here that within 24 hours the miners and operators would join in a request to Chairman Alvin Markle of the joint conference to call another meeting to attempt negotiations of a settlement.

The Lynett plan includes the immediate resumption of work by the miners, a five year contract dating from the date of signing the agreement and continuation of the wages under the last contract during the term of the new contract, unless changes as provided for.

Also the plan provides a means whereby a conference may be held on the wage question even after the contract has been signed.

The miners, however, will remain at work until the end of the five year contract whether or not a change of wages is agreed upon. One year before the contract expires miners and operators are to meet to devise an arrangement whereby work may be continued while negotiations are under way for a new contract.

HOPES AROUSED RECEIVE SETBACK

Philadelphia, Pa., Jan. 22.—Hopes aroused by John L. Lewis, president of the United Mine Workers, agreeing to join in a call for renewal of negotiations to end the anthracite strike, received a setback this afternoon when an unsigned statement from the mine owners' headquarters denied the statements made in Scranton, Pa., that the operators had virtually accepted the new "Lynett plan" of settlement.

While the statement was not signed, it was reported as official.

The statement was as follows: "Regarding reports that the anthracite operators have accepted a strike settlement plan proposed by E. J. Lynett, of the Scranton Times, the Philadelphia office of the anthracite operators' conference states that Mr. Lynett's plan did not meet any requirements of the situation and had not been accepted by Major Inglis or the operators."

Anthracite executives here said that the Lynett plan made no provision for arbitration and in certain respects failed to meet the necessities of the situation.

No plan, it was reiterated, would be acceptable to the operators that did not provide for arbitration which, it was held, was the mainstay of stabilized labor conditions for the future in the industry.

No conference of operators to consider the Lynett plan was looked for here, it was stated at the office of Samuel D. Warriner, chairman of the anthracite operators' conference.

SEN. PEPPER GETS OPTIMISTIC MESSAGE

Washington, Jan. 22.—An announcement was made on the floor of the senate this afternoon by Senator Pepper, Pennsylvania, republican, that he had been informed over the telephone by a friend in Philadelphia that the anthracite coal strike had been settled.

Pepper did not name the source of his information but stated that agreement had been concluded between miners and operators last night to end the strike on the basis of the Scranton Times plan.

Pepper's announcement conflicted with the United Press reports from Scranton that the miners had accepted the plan as a basis for re-opening negotiations.

MAJOR INGLIS A FACTOR IN THE NEGOTIATIONS

Scranton, Pa., Jan. 22.—On the attitude of Major W. W. Inglis,

Irreconcilables Bolster Force With One Convert

ARISTOCRATIC PALM BEACH 'TOUCHED' AGAIN

West Palm Beach, Fla., Jan. 22.—(UP)—Aristocratic Palm Beach again has been "touched" by jewel robbers, according to reports today.

Miss Muriel McCormick is reported to be the latest victim of the clever gem thieves who have been operating here since the winter season opened.

Although police denied knowledge of the theft, it was reported that Miss McCormick lost about \$25,000 worth of jewelry, while a guest at the home of Mr. and Mrs. George A. McKinlock.

OPPOSES SEARCH AND SEIZURE LAW OF NATION

MUNICIPAL JUDGE MAHAFFEY OF COLUMBUS, OHIO, TAKES STAND

SAY HE WILL SHOOT ANY DRY AGENT INVADING HIS HOME WITHOUT A WARRANT

Columbus, O., Jan. 22.—(UP)—Opponents of the search and seizure law have found a new champion here in Municipal Judge E. V. Mahaffey, who calmly announced from the bench that he will "shoot to kill" the dry agent or peace officer who invades his home without a search warrant.

Judge Mahaffey made this declaration when he sentenced Ralph H. Dewitt, a former dry raider, to thirty days in the workhouse for raiding a home without legal authorization and without tangible evidence, other than hearsay upon which to base the raid.

"Had you invaded my home as you did that of the prosecuting witness, I would have shot to kill," Mahaffey declared. "And I would have been within my legal right. You were an interloper—a trespasser—virtually a burglar."

Evidence brought out that Dewitt raided the home of Frank Keraghan without a search warrant. When no liquor was found, according to testimony, Dewitt manacled Keraghan, charged him with resisting an officer and otherwise mistreated him.

WALKS CALMLY TO ELECTRIC CHAIR

STATE OF INDIANA CLAIMS LIFE OF MURDERER OF GARAGE MAN

Michigan City, Ind., Jan. 22.—(UP)—The state of Indiana today claimed the life of Peter Jankowski, 23, of Indiana Harbor, for the murder of Andy Hirtzu, a garage man.

Jankowski walked calmly to the electric chair at 12:07 A. M. and seven minutes later was pronounced dead.

Jack Watson, an alleged accomplice of Jankowski, is serving a life term for the same murder.

INGENIOUS DISAPPEARING LICENSE MADE

Minneapolis, Jan. 22.—(UP)—Three men arrested here today have confessed a number of robberies using an automobile with an ingenious disappearing license as part of its equipment, police announced.

The confessed bandits were taken in the roundup of underworld characters conducted since the shooting this week of Jens Schmidt, a grocer. He was shot down while pleading for the life of a deaf customer who failed to understand the commands of bandits who held up the store.

Schmidt's condition was reported critical today. The bullet entered his body just above the heart. Blood transfusions may be resorted to in an effort to save the grocer's life.

spokesman for the anthracite coal mine owners, who is expected in Scranton tonight, may hinge the results of the efforts led by E. J. Lynett, publisher of the Scranton Times, to bring about a settlement of the anthracite coal strike.

The situation turned to Ingalls this afternoon following a series of apparently conflicting statements that so fogged the exact situation that even those closest to the negotiations could not feel certain what the result would be.

LOVE TANGLES TIGHTEN NOOSE FOR DURKIN

FIRST SWEETHEART FORSAKES HIM AND WILL TESTIFY AGAINST HIM

HER TESTIMONY, THE STATE BELIEVES, WILL SEND SHEIK TO GALLOWES

By EDWARD DERR
(United Press Staff Correspondent)

Chicago, Jan. 22.—Love tangles in the life of Martin Durkin today tightened the noose which the state is preparing for him. Betty Andrews Werner, the city sweetheart Durkin forsook to marry a village beauty, has turned against him and will testify for the prosecution. The weight of her testimony is believed by the state sufficient to send Chicago's "shooting sheik" to the gallows.

News that Betty had forsaken him shook some of the bravado out of Durkin. It cast a shadow over his jail cell which even his bravest smiles could not dispel. Ever since his capture Marty had boasted that Betty would be loyal to him—that "she would die rather than squeal." Even though he had left her alone in the city with a baby she claimed was his while he ran off and married Irma Sullivan, the pretty blacksmith's daughter of Cornell, Ill., he was confident she would forgive him and remain true.

But Betty saw the beautiful bride that Marty had chosen and decided against loyalty for the man she had protected in many of his serious scrapes.

"I want to stay in the custody of the state's attorney," were the words that revealed Betty's decision. She spoke them when Durkin's mother tried to have her released so she could not be forced to give evidence against him. The words indicated her intention to give state's testimony.

"So they have made you bitter against me, have they?" Durkin pleaded.

"They? They? You do it yourself," Betty replied, and turned away.

Durkin was to be arraigned today in criminal court and will be asked to enter his plea—"guilty" or "not guilty." It is expected to be the latter. If so the date for trial probably will be set at once and the state will attempt to convict him of murdering Edward Shanahan, the first of his murder victims.

Meanwhile the "other woman"—the girl from Cornell—was held in technical custody. Because she is Durkin's legal wife she cannot under the law give testimony either for or against him.

Gaining some of the composure she lost when she was first thrust into notoriety, Irma reiterated in quiet, convincing tones that she will be loyal to her gunman husband.

"Whatever I can do for him I will do," she said. "He is my husband and he has been good to me. That is enough for any girl."

DURKIN WINS A MINOR VICTORY

Chicago, Jan. 22.—Martin Durkin today won a minor victory in his fight to escape the gallows when Judge Harry B. Miller allowed him more time before entering his formal plea on the charge that Durkin murdered Edward C. Shanahan, the federal agent who tried to arrest him last October.

Durkin was arraigned on the murder indictment and was expected to plead "not guilty" to the charge. His attorney, however, requested a delay so that he could go into the case thoroughly with Durkin before binding himself by a plea one way or the other.

Judge Miller granted the request and ordered Durkin to appear in court to answer the indictment on Friday, Jan. 29—one week from today.

Durkin had lost some of his bravado when he walked into the court, surrounded by jailers and armed officers. He walked erectly, however, to the bar and stood beside his attorney, John Tyrrell, while the lawyer argued his case.

The court room was crowded to capacity and a score of cameras loomed a welcome to him. There was only a handful of women present.

Tyrrell asked for a delay until Feb. 8 but the state's attorney objected and a compromise delay of one week was agreed upon.

Tyrrell told the judge officers had taken \$2,400 from Durkin's clothing and urged that this money be spent at Durkin's direction unless it was established that it had been obtained illegally.

The judge indicated that Tyrrell was right in this matter and if he so rules Durkin will have that amount available as a defense fund. Durkin was then led from the

NAVY ENLISTED STRENGTH TO BE CUT 1,000 MEN

Washington, Jan. 22.—(UP)—The house today approved a provision of the navy appropriation bill to cut that service's enlisted strength by one thousand men. Naval committee members failed to carry out plans to seek a navy of 88,000 men asked for by the navy department and the figure was set at 82,000.

SUB ZERO COLD CHILLS CHICAGO

MUCH SUFFERING REPORTED IN THE TENEMENT DISTRICTS

Chicago, Jan. 22.—Sub zero temperatures chilled the heart of the middle west today and brought suffering to the tenement districts. Thermometers in Chicago's loop registered five below zero this morning and outlying suburbs reported unofficial readings as low as nine degrees.

St. Paul, Minn., Jan. 22.—(UP)—Twin Cities today suffered coldest weather of the year when temperatures stood at 16 below zero. Virginia, Minn., reported 23 below. Trains and busses ran on time.

Milwaukee, Wis., Jan. 22.—Wisconsin today was in the grip of sub-zero weather which arrived around midnight on the wings of a strong north wind.

Street corner thermometers at 6 A. M. today registered around six and seven below and with the north wind increasing in intensity there was every indication the mercury would drop a little more before night.

Beloit, Wis., Jan. 22.—Following several days of balmy weather, the mercury late yesterday began a gradual descent and this morning registered 14 below. Continued cold is forecast for tonight and tomorrow.

Cold blasts from Canada blew down over the North Central states today bringing sub-zero temperatures to many regions, and promising to spread fanlike over the rest of the nation before night. States bordering on the western lakes suffered first from the chill winds, Wisconsin, Minnesota, Michigan, Illinois and Indiana reporting temperatures below zero.

Adjacent states felt the blast this morning and weather observers predicted falling temperatures to the east, west and south before night.

Cold winds from Lake Michigan sent the mercury in Chicago to five degrees below zero early this morning and several outlying districts reported readings of nine below.

Northern Indiana had zero weather and the central and southern portions of the state found the mercury rapidly falling toward that level.

Wisconsin reported almost uniform temperatures between three and seven degrees below zero with the mercury still dropping.

Central Illinois suffered a sudden drop from above freezing to one degree below zero. Southern Illinois and eastern Missouri had the coldest weather of the season with the mercury hanging between four and 10 above.

Minnesota and Nebraska had snow and sub-zero temperatures and Ohio found heavy snow and falling mercury.

Southwestern states had record breaking cold weather and heavy snow interrupting telephone and telegraph communication in some sections. New York and other eastern states reported falling temperatures and snow.

Freezing temperatures or lower were general over the entire nation today, except for the southern Atlantic coast, including Florida, a few points along the gulf coast in Texas, and the coast line of the Pacific.

The cold wave will continue for several days, the weather bureau predicted.

court back to his cell in the county jail to confer with his attorney on a plan of defense.

An important phase of the Durkin case centers on the proposal to annul his marriage to Irma Sullivan Durkin, his country girl bride from Cornell, Ill. The state is anxious to have the marriage declared void so that it may use Irma as a prosecution witness.

Durkin already had a wife when he married Irma, it developed. There was no divorce so far as police have been able to learn. They hold that Irma's parents can easily secure annulment of the marriage to the country girl.

The Sullivan are under pressure from the state and the defense, the former asking annulment proceedings and the latter urging against the step for fear that Irma has damaging evidence.

WAGING VICIOUS BATTLE AGAINST WORLD COURT

SEN. PINE OF OKLAHOMA SAYS HIS STATE IS AGAINST THE COURT

ACCORDINGLY HE WILL VOTE AS HIS STATE HAS DIRECTED

By PAUL R. MALLON
(United Press Staff Correspondent)

Washington, Jan. 22.—The irreconcilables gained their first convert in the vicious battle they are waging against the world court when an administration senator, W. B. Pine, Oklahoma, republican, today entered their camp.

"My party is for the world court but my state is against it and I will vote with my state," Pine said in announcing his position.

Previously he had been considered for the court.

Congress Today

Senate:
World court debate.
Prosecution begins attack on confirmation of Federal Judge Anderson of Memphis before sub-judicial committee.

House:
Railroad consolidation bill hearings continued before interstate commerce committee.

Consider naval appropriation bill.

Appropriations committee considers deficiency, state and justice, independent offices and commerce and labor appropriation bill.

Rubber investigation.

Military committee considers aviation legislation.

Irrigation and reclamation committee considers Boulder dam.

Congress 100 Years Ago Today

Senate:
In recess.

House:

Passed resolution instructing military affairs committee to inquire into expediency of appropriating funds to repair arsenal and other public buildings at Newport, Ky., across from Cincinnati, Ohio.

It is argued by Rep. Johnson, Kentucky, that Newport is the second best recruiting rendezvous in the country (Philadelphia being the best) "because of its central position in the whole of the western country—surrounded by dense population, healthy climate and provisions plentiful and cheap."

With this change, a complete poll of the senate made by the United Press showed the following line-up at this point in the battle:

For the court—Republicans 41; Democrats 36; total 77.

Against the court—Republicans 15; Democrats 3; Farmer-labor 1; total 19.

This gives the court 13 more votes than the necessary two-thirds majority for its adoption. Fifteen republicans against include:

Borah, Brookhart, Frazier, Harrell, Howell, Johnson LaFollette, Moses Norris, Nye, Pine, Wadsworth, Williams, Schall and Fernald.

The three Democrats are: Bleasie, Dill and Read, Missouri, and the Farmer-laborite is Shipstead.

The conversion of Pine gave the filibusters new life as the administration leaders pressed harder upon them for a vote.

Threats were made tonight before adjournment if present tactics continue, a cloture motion would be presented by 16 administration senators asking limitation of the debate.

Chairman Smoot of the finance committee has tacitly agreed to withhold the tax bill until some solution of present difficulties is found and he may not bring it up Monday as expected.

SEN. COLE BLEASIE FACES WHOLE SENATE

Washington, Jan. 22.—(UP)—Senator Cole Bleasie, fiery South Carolina democrat, again stood out against the entire senate today and prevented adoption of an agreement which had been worked out by republican and democratic leaders to take up the tax bill.

Immediately Sen. Walsh, Montana, democrat, began circulating a petition to invoke an old cloture rule to limit debate on the world court. It will be presented later, signed by 16 senators and must be voted on Monday.

Walsh did not stop when he obtained 16 names but passed the petition to everyone. Within ten

FARMER'S WIFE BRUTALLY KILLED BY UNKNOWN MAN

Sewellsville, Ohio, Jan. 22.—(UP)—Mrs. Firman Hoge, wife of a farmer living in an isolated section of the country, was attacked and brutally murdered by an unidentified assailant early today, according to the woman's husband who called authorities here for aid.

Apparently a struggle had ensued, he said. The house was a shambles and the walls were splattered with blood.

EAST CHANGES STAND ON THE FARM QUESTION

MORE FRIENDLY FEELING IN WASHINGTON FOR THE FARMER

EAST REALIZES AGRICULTURE IS BASIC INDUSTRY OF NATION

St. Paul, Jan. 22.—(UP)—Governor Christianson in a talk to the Minnesota Farm Bureau federation last night said the east, particularly Washington, was changing its attitude toward the northwest agricultural situation.

The governor, recently returned from the capitol, told of a more friendly feeling toward the farmer and said that at last he was understood by Washington. The east now realizes that agriculture is a basic industry and its success means the success of the country.

The Farm Bureau adopted resolutions favoring raising the tariff on butter; the waterway project; removing stockholders' liability in all financial corporations and the organization of a county protective association.

J. F. Reed was elected president, A. J. Olson, Renville, first vice president, Harbath Bue, Northfield, second vice president; Mrs. E. V. Ripley, Menasha, and John D. Pyle, Madison, as directors for three years.

WOMAN AS STATE TREASURER

MRS. BEN H. URBANUS FILLS POSITION HELD BY HUSBAND IN INDIANA

Indianapolis, Ind., Jan. 22.—(UP)—Through a death bed promise made to her husband, Mrs. Ben H. Urbanus today prepared to step into the office of state treasurer—the first woman in the history of Indiana to hold a major state office.

Urbanus who was serving his first term as treasurer of state, went to the hospital for an operation with a promise from Gov. Ed Jackson that in event of his death his wife would be named to fill his unexpired term.

Urbanus died last night and Gov. Jackson announced he was prepared to name the widow to the office.

minutes he had thirty names, assuring presentation of the petition.

VOTE OR TALK ULTIMATUM

Washington, Jan. 22.—Under the "vote or talk" ultimatum of administration leaders, senate irreconcilables again chose to talk and entered the seventh day of their filibuster against the world court today with Chairman Borah of the Foreign relations committee, holding the floor.

All efforts to arbitrate the differences which are holding up a vote on the court and consideration of the tax bill were dropped by both sides.

Only those on guard for the opposing factions were present as Borah presented his argument that the League of Nations has grown into an alliance for enforcement of peace by force and military power.

MRS. WOODROW WILSON WATCHES FROM GALLERY

Washington, Jan. 22.—Mrs. Woodrow Wilson, widow of the late president, watched from the gallery today as the senate argued the principles of her husband for international peace.

She heard the leader of the irreconcilables, Sen. William E. Borah, Idaho, republican, who helped kill Wilson's proposal, for American entry into the League of Nations, commend the theories that Wilson proposed at Versailles.

Borah asserted that the League had violated every one of these theories and had established itself into a gigantic world military machine for the enforcement of peace by brute strength.

HEADLESS AND LEGLESS TORSO OF GIRL FOUND

IDENTIFIED AS THAT OF MISS ANNA MAY DIETRICH OF NORWOOD, PA.

POLICE ANNOUNCED THEY HAVE CLUES TO THE GRUESOME MURDER

Media, Pa., Jan. 22.—(UP)—The headless and legless torso of a young woman found in the woods near here late yesterday afternoon was identified by state police today as that of Miss Anna May Dietrich, 34, of Norwood.

Identification was made by scars on her feet which had been described to A. F. Dahlsto, a state policeman, by the victim's sister, Mrs. Al Schuhl, who also lives in Norwood, a community near Philadelphia.

Immediately following identification of the torso police announced they had clues to the murder which may lead to an arrest today.

A thorough search of the woods by a squad of officers had failed to reveal the head of the slain woman. Her legs were found 15 feet from the torso, wrapped in a piece of heavy brown paper and heavily bound with straps.

The woman's legs had been severed cleanly, an examination disclosed. A sharp instrument in the hands of one with a knowledge of surgery was used, police believe.

The slain woman disappeared on Tuesday in Philadelphia after a shopping tour with her sister, Mrs. Alexander Schuhl.

An autopsy by Dr. D. Clark Shuhl, coroner's physician, failed to disclose the cause of death. Dr. Shuhl said the woman may have been murdered by strangulation, the tell-tale marks showing on the head that is still missing.

CLAIM 1926-1927 TO BE SHORT OF ANY SUMMERS

By DAVID DIETZ
(Written for the United Press)

The prediction that 1926 and 1927 will be years without summers was regarded with special interest by scientists today with official forecasts of colder weather coupled with the return of snow.

The year 1816 was such a year, some snow falling during every month of the year.

These predictions are made by French scientists on the basis of a statistical study of the weather of the past 300 years and by an American meteorologist, Herbert J. Brown, who bases his opinion on a study of the radiation of heat by the sun.

Observations of the heat radiated by the sun made by the Smithsonian institution shows that in November, 1921, the heat fell off from 1.94 calories per square centimeter, the average of the past 18 years, to 1.80. Brown claims in his theory that the effect of this drop will be felt this summer.

A British meteorologist has shown that the summer weather in England is influenced by the gulf stream which in its turn is influenced by the Labrador current which in turn is influenced by the direction of prevailing winds over Davis Straits.

Accordingly England's summer temperature depends upon the direction of winds in North America six months previous.

MILK PRODUCERS ASSOCIATION MEETS AT BELVIDERE

Belvidere, Ill., Jan. 22.—(UP)—Delegates from 90 locals of the Milk Producers' Association will meet at Elgin January 25, to consider formal acceptance or rejection of the tentative agreement arrived at in Chicago by the general committee appointed to find a solution of the milk troubles of Chicago and northern Illinois.

It is expected that 1,000 dairymen will go to Elgin from various places in northern Illinois on that day.

The Elgin meeting has been called by Walter Wilbur, of Crystal Lake, chairman of the Milk Producers' Defense committee, which was originally appointed to oppose the April dictum of Dr. Herman Bundesen.

FLYING MACHINES TO FIGHT PESTS

Washington, Jan. 22.—(UP)—Extensive experiments to determine the adaptability of airplanes to agriculture and industry will be carried on this spring by the agriculture department. Sec. Jardine believes the time has arrived when flying machines can be of great value to farmers in fighting pests and plant diseases it was said today.

30 ENROLL FOR COMMERCIAL STUDY

Brainerd Business College Has Many
Local And Out-of-Town
Students

MANY GRADUATES PLACED

Miss Florence Reed, Valley City, N.
D., Instructor, Has Much
Experience

About thirty students are enrolled for the winter semester at the Brainerd Commercial College, eight of the students being boys. Several places outside of Brainerd are represented in the enrollment, among them being Clarkfield, Jenkins, Pequot, Solway, Crosby, and the rural places near this city.

Assisting Miss Rosa Anderson, head of the college, in the work of instructing the students, is Miss Florence M. Reed, of Valley City, N. D., who has had a large experience both in teaching and in practical commercial work.

A number of students have been placed in positions since the first of the year, among them Miss Hildur Finney, who now works for the Nash-Finch Grocery Company, Miss Gretta Liebold, with the Woodhead Motor Company, Miss Ruth Phillips, with Taylor's Sales Service, Miss Irma Seger, at the Northwestern hospital, Miss Evelyn Ryan, with Ryan, Ryan, and Ryan law offices, Miss Marielle Mraz with the Lyceum theatre, and Miss Marie Schultze, with O'Brien and Sons.

Other students are expected within a short while, students being eligible to enroll at any time during the semester. Every week sees new students in the classes.

JELLO

America's most famous
dessert

Jell-O desserts are easier and quicker to prepare than any other. To the housewife who enjoys preparing original desserts, Jell-O gives her inventive powers the best opportunity. And she has the satisfaction of serving a dish attractive to the eye, satisfying to the taste and at only the cost of a few minutes work.

How to make plain Jell-O dessert.

Measure carefully, adding one pint of boiling water for each package of Jell-O used.

Add the hot water, stirring until Jell-O is thoroughly dissolved.

Pour Jell-O into the mould and set in a cool place until it stiffens.

at 8 o'clock. All the young people are urged to be present. Sabbath school 10:15 a. m. Saturday. Preaching service 11:30. Subject: "How May We Continue a Rich Experience?"

MRS. ARRENA BRINEGAR DIED

Motley Woman Passed Away at Local Hospital After Attack of Pneumonia

Mrs. Arrena Brinegar, wife of Samuel Brinegar, of Motley, passed away this morning at a local hospital, death resulting from pneumonia. The remains are at the McNamara mortuary, and will be shipped to Motley for burial.

The deceased was born in Kentucky, on August 18, 1866. She leaves three children, besides her husband, to mourn her. The time of the funeral has not been set.

All Tastes Provided For

The Beluchistan rugs are woven with the Schna knot, and have a fine silky appearance. The chief colors are dark blue, brown, rich dark red, black, and white, and the designs are usually geometrical, though some follow the simpler floral patterns of Persia. They wear well.—From a furniture ad in the Pittsburgh Press.

Little Things Count

Life is made up, not of great sacrifices or duties, but of little things, in which smiles and kindnesses and small obligations, given habitually, are what win and preserve the heart and secure comfort.—Sir Humphrey Davy.

The GOLDEN RULE in PRACTICE

A series of articles by prominent leaders on the Golden Rule as a guide in International Relations.

OH, WELL, THEY'LL START AGAIN

By A. LAWRENCE LOWELL
President of Harvard University

Since the barbarian invasions of Europe, there has never been anything like what we have seen in Asia Minor recently.

Imagine a scourge coming over this country which killed a large portion of the population and destroyed all the able-bodied men. Oh, well, when it had departed, we should start again. Start again? How are you going to start again? The implements of trade are gone; the implements of agriculture are gone; in many cases the parents are gone, leaving small children. What are those small children going to do to provide for themselves? Oh, well, they will be put into schools. But there are no schools. They will be looked after by the public authorities. But there are no public authorities, or none that can take hold of them at all. They will grow up and be put into factories. But there are no factories. It is a country where people depend upon their own household trades, and how are they to learn the household trades when there is no one to teach them, and all the tools are destroyed?

It is an outlook of which we cannot conceive. Not only was civilization destroyed, but also the means of recuperation.

Perhaps the happiest thing for these children would be to die, unless something is done for them, unless someone provides for them.

Now here has come the Near East Relief and adopted this vast number of children, most of whom it has already taught, fed, clothed, brought up to a point when they go out, and given them a trade. There are many left. Shall the work be finished, or shall it not?

Golden Rule Sunday will be observed throughout the United States in December, on behalf of the Near East Relief. This series of articles, by prominent public men who are supporters and spokesmen for this great philanthropy, is designed to call public attention to the background and purpose of the work and its need for general support.

READ THE WANT ADS DAILY

Public Pleasure Grounds

Public parks or gardens were known from the earliest times. The Egyptians had them, as did also the Assyrians and Persians. There were a number in the various towns of ancient Greece. In Rome, in the time of the Caesars, there were 30 parks belonging to the city. During the Middle Ages little thought was given to them, but during the Renaissance many public parks were laid out in European cities.

Maine's Election Day

The election day of the state of Maine was fixed by the legislature at a time when transportation facilities were much poorer than at present. By November in the state of Maine many roads were closed to travel and it was exceedingly difficult for people to reach the polling centers.

Hidden Riches

There is many a rich stone laid up in the bowels of the earth, many a fair pearl laid up in the bosom of the sea that never was seen, nor never shall be.—Bishop Hall.

Colds

By millions ended
Hill's stop millions of colds every winter—and in 24 hours. They end headache and fever, open the bowels, tone the whole system. Use nothing less reliable. Colds and Grippe call for prompt, efficient help. Be sure you get it.

Do You Know What That Little Sign Means?

What a United Press Reporter Must Know

THE UNITED PRESS was the first American news service to enter Latin America.

Its Bureaus in Buenos Aires and Rio de Janeiro receive news from Europe in five different languages—Italian, French, Spanish, English and Portuguese.

Here it is first translated into English and then re-translated into Spanish and Portuguese.

UNITED PRESS staff men must not only have a thorough knowledge of languages, but they must have a clear understanding of current history and world-wide political and economic questions.

They must know the significance of the Tacna-Arica question in Chile and Peru... the trend of politics in New York or North Dakota... the present status of the World Court... the latest word concerning Wills' challenge for Dempsey's crown... the effect of the latest uprising in China.

This newspaper carries UNITED PRESS dispatches from South America as well as from every other country on the globe.

This great, independent news-gathering organization supplies you with the facts, without bias or prejudice or taint.

The newspaper which prints news "BY UNITED PRESS" is always a distinguished newspaper.

KEEPING OUR HIGHWAYS GREEN

WALTER M. MURPHY, County Highway Engineer, voiced a plea for keeping the highways green when he addressed the Dairymen's convention on the occasion of the recent smoker. We are glad to give him the prominence it deserves and find the idea broached a most worthy one. In the course of his remarks, Mr. Murphy said:

"Keep our highways green is the slogan that particularly appeals to us here in the North Central portion of the state. In the last decade we have seen the majestic white pine along with the Norway and that stately tree, the spruce, laid low for commercial purposes and now by the new process of extracting the resin and pitch from the jack pine, it can be used for pulp.

"Now this is no mere mawkish sentiment, this saving of the last of the evergreens, but as an engineering problem it ranks high. With the denuding of the land of vegetation, you have taken away your reservoirs which hold moisture and let it out gradually. Your runoff is excessive, and evaporation is greater. Drying up is faster. So taking away the trees creates a condition similar in effect in parts of China whose hills and dells were at one time as fully clothed as ours are here in Minnesota, but now are sandy wastes where the rivers overflow their banks causing destruction of life and property in the valleys adjacent. We are at the edge of the semi-arid area. Take our trees away and our lakes would dry up, sand hills arise, and a deplorable condition would exist.

"In making this plea for saving the jack pine, I am confining my efforts to that portion that has as its southern boundary Mille Lacs lake, its northern extremity Bemidji, its eastern and western Aitkin and Ottertail respectively.

"Now I do not discriminate against any part of the state for you have your beauty spots, but I do urge that legislation be enacted that at least a two rod strip be maintained along each side of our highways. For as the paint is to the house, so are the trees to the roads, not only serving for ornamental purposes, but preserving the highway and acting as a snow barrier against the storms of winter.

"It would not be the country that Hennepin saw and exclaimed as he stood on the shores of Mille Lacs lake, 'The land of blue skies, green trees, and clear water.'

"In these strenuous times and days as we glance back over history's pages, we find nothing to compare them with. Let us talk conservation and save for our children's children the heritage that has been given to us, the tree, for as the poet says: 'Any fool can be a poet, But God alone can make a tree.'

GIVE THE FARMERS A SQUARE DEAL

THE Walker Pilot observes very truly:

"We have always believed in a protective tariff, but we have also believed that it should be elastic to meet changed conditions and also be for the protection of all classes rather than for certain classes.

"If you will notice every time that butter gets to a price where the dairyman can realize a little real velvet, we get reports of importation of butter in large amounts from foreign countries and down goes the price of American butter.

"Right now butter is on the down grade because one ship landed 500,000 pounds of butter from New Zealand and other ship loads are already on the way from Australia, Sweden, Denmark and Argentina. If the government wants to be fair and give the farmers a square deal they will place a tariff on dairy products that is just as effective as is the tariff for the protection of labor and industry."

STATE EDITORIAL ASSOCIATION

THE Minnesota State Editorial association convenes at Minneapolis on February 19 and 20 and an attendance of 250 or more editors is expected. One of the principal speakers will be former Governor Frank O. Lowden of Illinois, discussing the needs of agriculture.

The association will take up the proposal of a field secretary for the editorial association, such an innovation having been under investigation for two years.

H. Z. Mitchell, of Bemidji, editor of the Bemidji Daily Pioneer, is the president of the Minnesota Editorial association.

MOUNTING COSTS OF NEWSPAPERS

THE Red Wing Eagle calls attention to the fact that costs of producing newspapers are constantly increasing.

"The mounting cost of issuing newspapers, as compared with former times has caused a large number of consolidations to be effected throughout the country, including Minnesota. The time is past when the cost of publishing a paper was such that whenever a group of persons who wanted to put something over could cause a paper to be started and then leave it to shift for itself, with some prospect of keeping alive."

"AFTER a three thousand mile jaunt away from Minnesota, the writer (Billy Noonan of the Baudette Region) is in a position to appreciate the work of C. M. Babcock, the state's highway commissioner. Illinois is the only state we have driven through that has roads to compare with Minnesota. The other states are so far behind that they are not even in the race. Our bones will be thankful when we get back on Minnesota roads."

SOME people, like the fair Miss Ethel Leginska, get just as nervous playing a piano as do others listening to the instrument. However, no one has ever heard of a saxophone player suffering from an excess of nerves. It's the neighbors that get the nervous prostration.

IN a communication to correspondents the Staples World says very emphatically: "Know what you are talking about when you write an item for the World."

SOME professor is arguing for more fresh air for farm animals. If it can't get fresh air on a farm, we wonder where the animal will ever get its quota.

Sculptor Novelli And His Heroic Statue To Be Erected In Long Island City As War Memorial

James S. J. Novelli is shown above with his heroic statue, "Victorious America," which is to be erected in Long Island City, a part of Greater New York, as a tribute to the men of that district who lost their lives in the World War. The statue will be unveiled in March.

INTERNATIONAL RADIO WEEK

RADIO TESTS TO BE MADE WEEK
JANUARY 24 TO 30
INCLUSIVE

Plans for the observance of International Radio week, January 24 to 30 inclusive, include a series of radio tests arranged by the International Radio week committee under the direction of the National Radio Trade association, 1133 Broadway, New York City.

On January 24 to 28 inclusive all American stations will put special programs on the air from 10 p. m. to 11 p. m. eastern standard time and foreign stations will remain silent. From 11 p. m. to 12 p. m. eastern standard time on those days all American, Canadian, Mexican and Cuban stations will remain silent while European and South American stations will put on special programs.

On Friday of this week there will be a special series of broadcasts from 11 p. m. to 12 p. m. eastern standard time, the first quarter of the hour being devoted to Cuban stations and those in the eastern time zone, the second quarter to central time stations, the third quarter to the stations in the mountain zone and the last quarter to the Pacific stations.

On the following day a similar series will be given except that the first quarter will be given over to the Canadian stations, the second to the stations in the northern half of the United States, the third quarter to the southern half, and the last quarter to Cuba and Mexico.

The foreign radio stations which will take part in the international tests are:

No call	263		Brussels

The Radio Digest has announced prizes totaling \$100 in gold for the best report of European reception by American or Canadian listeners. The first prize will be \$50, the second, \$25, third, \$10, and the fourth, fifth and sixth, \$5 each.

Songs in Swedish, Italian, German, Danish, French, Norwegian and Russian will be parts of the musical programs during the test period. One minute talks will be given in French, Flemish, German, Polish, Danish, Norwegian, Spanish, Marathi (Language of the Central province of India), Japanese, and possibly Russian and Chinese. Peter MacArthur, a Scotchman, will be announcer for the international program.

Special arrangements have been made by the Western Union Telegraph Company to handle the telegrams and cablegrams which, as in former years, are expected to come from listeners. Such telegrams may be telephoned to the Western Union.

Good Book's High Value

A good book is the precious lifeblood of a master spirit, embalmed and treasured up on purpose to a life beyond life.—Milton.

TODAY'S FIVE BEST RADIO FEATURES

KGO, Oakland (361) 8:10 p. m. Pacific standard time—A Burmese Song Cycle.

SUNDAY RADIO CONCERTS

Ballot Being Taken For Kind of Programs Wanted in Sunday Broadcasting

A vote is being polled throughout the country to determine the type of concerts the general public wants on Sundays. Questions that interest the inquirer are whether the strictly religious kind is most desired, or if there is a call for good classical music and instructive features mixed in with the religious. One question also asks if there is objection to jazz and popular music on that day.

The radio set with nothing on the air is likened to the automobile of the war days, when all Sundays were gasolineless days. The radio with nothing on the air is about as useless as the auto without its regular drink of potent liquid.

Sunday being the day when most people have time to enjoy their radio sets, this balloting is being undertaken to find out what the people most want to hear on their day of rest.

TRUNK HIGHWAYS IN FAIR SHAPE

Minnesota trunk highways are open today over the big part of the system, although slowed by recent snow storms and drifting, according to a bulletin from the state highway department.

Adverse weather continuing, conditions are most unsatisfactory in the southeastern part of the state where enlarged crews with extra equipment are carrying on the battle against blockades. More snow threatened possible difficulties in the central section. In other districts over the state trunk routes generally are open and fairly good, and in some both sleighing and wheeling is reported good.

The bulletin giving conditions as of today on the 7,000-mile system of Babcock roads marked with official numbers on yellow stars, follow, insofar as it refers to the Brainerd Lake Region:

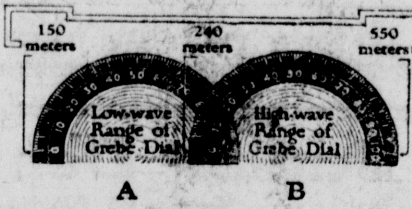

T. H. No. 2—Duluth, Brainerd, Wadena, Detroit and Moorhead—264 miles—Duluth, paved—Tamarack, fair—Aitkin, good—Detroit, passable—Moorhead.

T. H. No. 18—Elk River, Milaca, Garrison and Brainerd—102 miles—Generally good.

T. H. No. 19—Brainerd, Walker and Cass Lake—97 miles—Generally good.

T. H. No. 27—St. Cloud, Little Falls and Brainerd—66 miles—St. Cloud—paved—Belle Prairie, fair—25 mile detour—Brainerd.

READ THE WANT ADS DAILY

The high-wave reception range of the Grebe dial (B)—from 550 down to 240 meters—equals the practical tuning range of the usual receiver. The low-wave range of the Grebe dial (A) provides additional reception down to 150 meters.

You Don't Need Two Radio Receivers

OVER 100 existing stations, with worth-while programs, are beyond the reach of the average receiver because it cannot tune below 240 meters.

Thus, to get both high and low-wave stations requires two receivers—unless you own a Synchrophase. Due to its Low-Wave Extension Circuits—exclusively Grebe—it will receive all stations from 550 down to 150 meters. One dial covers this complete range.

Ask for a demonstration of this and the other recent Grebe developments; then compare.

PLEADS GUILTY TO PLANTING A DYNAMITE CHARGE

RICHARD ROGHAN MAKES CONFESSION AT RACINE, WIS.

EXPLOSION KILLED STANLEY PACKAMORE, AT HIS RESTAURANT

Racine, Wis., Jan. 22.—Richard Roghan, 27, who confessed having set a charge of dynamite under a restaurant here Nov. 12, which resulted in the death of Stanley Packamore, pleaded guilty to first degree murder today and was sentenced to life imprisonment by Judge E. B. Belden.

Roghan who at first declared he would not plead guilty to first degree murder in connection with the death of Packamore, took the stand and calmly recited details of the explosion after which he entered a plea of guilty.

Judge Belden then passed sentence of life, the only sentence possible in a plea of guilty to first degree murder.

Upon Roghan's declaration that he would not plead guilty to first degree murder, officials for a time intimated they might change the charge to second degree murder, fearing they might have some trouble finding the man guilty on the original charge. But today when taken into court, Roghan made a clean breast of everything and declared he wished to enter a plea of guilty to the charge of first degree murder which had been preferred against him.

While detailing his list of crimes, which included robberies, holdups, sniping at electric trains and an attack on a woman, he emphatically denied having had any connection with the brutal slaying of Madeline Latimer and James Sears on a lonely road between here and Kenosha last October.

BANKS SHOW

HEALTHY GAIN

St. Paul, Jan. 22.—(UP)—Minnesota state banks and trust companies gained \$19,376, 136 in deposits during 1925. This was announced today by A. J. Veigel, state banking commissioner, on the basis of returns from the bank call as of Dec. 31, 1925.

ONE BID ON AIRMAIL REJECTED BY POSTMASTER GEN.

Washington, Jan. 22.—(UP)—Postmaster General New today rejected the bid of Roscoe Turner Airways, Inc., to operate the proposed Chicago to Birmingham, Ala., air mail route. The company did not submit sufficient proof of financial backing to carry out operations.

This is the second bid rejected for this route. It has been advertised twice and one unacceptable bid received each time.

It is probable that the route will not again be advertised unless Chicago, Birmingham and the other cities on the route, Indianapolis, Louisville and Nashville, show further proof that they need this service, air mail officials said.

NEW APPOINTMENT BY ANTI-SALOON LEAGUE OF WISCONSIN

Milwaukee, Wis., Jan. 22.—(UP)—Rev. J. F. Hartman, Pittsburgh, has accepted the position of state superintendent of the Wisconsin Anti-Saloon league and will report for active duty on Feb. 1, according to a telegram received by Rev. H. J. Logan, acting superintendent. Rev. Hartman takes up the position left vacant by the resignation of D. L. McBride, who accepted a similar position in Minneapolis.

The message received by Rev. Logan was signed by A. Fulton, secretary of the national organization who personally prevailed on Rev. Hartman to accept the Milwaukee post.

JEWELRY STORE HELD UP BY THREE MEN

St. Louis, Mo., Jan. 22.—(UP)—Three bandits today held up employees of the Julius Friton Jewelry and Gem Co., and escaped with a tray of diamonds, valued at \$50,000. Two of the employees were trussed by the bandits.

Toledo, O., Jan. 22.—(UP)—Three bandits held up the Broadway-South Street Branch bank of the Ohio bank here today, shot and wounded Manager Edward L. Finn and escaped. Bank officials estimated the loot at \$15,000.

Continents Connected?

Bones of great apes like those that still exist in Africa have been found in India, and some scientists believe that at one time there must have been a land connection between the two countries.

SEN. LA FOLLETTE IN MAIDEN SPEECH

ASSAILS PROPOSAL FOR AMERICAN ADHERENCE TO THE WORLD COURT

Washington, Jan. 22.—(UP)—Senator Robert M. LaFollette, Wisconsin republican, youthful successor to his father's seat, made his maiden speech in the senate today, assailing the proposal for American adherence to the world court.

LaFollette took the floor when Sen. Frazier, North Dakota, republican, had attempted to interpose a quorum call because none of the other irreconcilables were around to speak and the democrats were calling for a world court vote.

The 30-year-old senator who is just over the age minimum required for senators refused to let his friend Frazier make the quorum call, which

is usual to get an audience for a speaker. "I realize that some senators will not desire to listen to what I have to say and it with great reluctance that I, as a new senator, cannot refrain from voicing my disapproval of this pending resolution," LaFollette said.

SELF CONFESSED SLAYER OF TWO HUSBANDS COMMITTED

East Liverpool, Ohio, Jan. 22.—(UP)—Undeniably happy and conversing exuberantly with her guards, Mrs. Laura E. Christy, self-confessed slayer of two of her eight former husbands, was taken to the Lima state hospital yesterday.

Characterized as a modern "woman Bluebeard," Mrs. Christy will be kept under observation in Lima and if improvement in her mental condition is noted, she will be returned here to stand trial on charges of murder.

The order committing the woman was issued after alienists pronounced her insane.

CONQUER CONSTIPATION EASILY

Kellogg's ALL-BRAN relieves constipation because it is 100% BRAN

Mr. McEnery tried part-bran substitutes—but only ALL-BRAN brought complete relief. Here's what he says:

"For fifteen years I was constantly bothered with constipation. About two years ago I tried out mixed bran and corn flakes but did not get much relief. Some eighteen months ago, I began using Kellogg's ALL-BRAN. From the first week to this good day, I have never had to take a dose of any laxative medicine of any description."

JAMES D. MCENERY,
R. F. D. No. 4, Alto, Texas.

Constipation is the enemy of health. The cause of more than forty diseases. Don't let this in-

"DEAD CASES" ARE WEEDED OUT

Washington, Jan. 22.—(UP)—Forty prosecutions, mostly liquor cases, were weeded out of the docket at "dead cases" in the court of Federal Judge Anderson at Memphis, District Attorney S. E. Murray of that Tennessee district, told the senate committee investigating Anderson's feasibility for his post.

No formal motion for dismissal was made, Murray said, but he and former Deputy Clerk E. J. Heidel took the cases off the docket.

Various Heating Methods

The ancients used stoves which concealed the fire, as the German stoves yet do. Rooms were also warmed by portable braziers. In England heating was secured by fire in an open grate and this method is still in common use, although it results in a great waste of fuel.

Makes home cooking taste like the creation of an expert French chef. Just a dash of Kitchen Bouquet—and soups, stews, gravies and sauces take on a new and appetizing flavor and color. A remarkable liquid flavoring prepared from the aromatic juices of choice garden vegetables.

Fish Fritters

1 tablespoon Kitchen Bouquet; 3 ounces salted flour; 2 tablespoons olive oil; lemon, parsley and salt; 2 eggs, beaten; 1 gill tepid water; ½ pound haddock, free from skin and bones and cut small. Mix flour, olive oil, Kitchen Bouquet and water into a batter, add eggs, fish and salt to taste. Drop from tablespoon into hot fat, fry to golden color, garnish with lemon slices and parsley and serve very hot.

At good grocers everywhere

THE BRIGHT SPOT IN EVERY TOWN

The GOLDEN RULE in PRACTICE

A series of articles by prominent leaders on the Golden Rule as a guide in International Relations.

A GIRDLE ROUND THE WORLD

By BISHOP JAMES CANNON, JR.

The Golden Rule this year will be stretched out to be a golden girdle around the earth.

American memory keenly recalls how Golden Rule Sunday laid hold on the imagination of our own people last December. The plain orphan's dinner was eaten in countless homes, clustering in spirit around the nation's first home, the White House at Washington. And the money response to the Near East Relief was notable also.

But what Americans do not at all realize, is the extent to which the day was observed in Europe. England, Switzerland, France and Germany were especially interested and reacted accordingly to the governing thought of the occasion.

The response this year will be vastly more general in Europe, with about fifty nations cooperating. In the United States popular enthusiasm for the observance grows daily and promises a veritable people's "holier day" of peace spirit and humane sentiment, with immense benevolent value incidentally for the Near East Relief.

The good will among nations cultivated by international charity has been frequently illustrated and vindicated since the great war ended. Famine relief in Russia and Central Europe, enormous subscriptions for China famine and Japanese earthquake—who can measure their influence?

But these considerations chiefly apply to friendliness generated in the hearts of recipients toward the givers

of charity. It is to the credit of the Near East Relief, specializing in the care and protection of orphans who survived massacres in Bible Lands, that it has developed a cooperation still more dynamic—the good will that must knit together nations who are cooperating in the same work of kindness, an international partnership in giving for the poor.

Golden Rule Sunday will be observed throughout the United States in December, on behalf of the Near East Relief. This series of articles, by prominent public men who are supporters and spokesmen for this great philanthropy, is designed to call public attention to the background and purpose of the work and its need for general support.

RICKARD RESENTS TOO MUCH DICTATION

THREATENS OPEN DEFIANCE OF BOXING BODY

SAY HE HAS DONE NO BUSINESS
WITH DEMPSEY OR
TUNNEY

CANNOT AFFORD TO FIDDLE
AROUND WITH ANY DINKY
LITTLE MATCHES

By HENRY L. FARRELL
(United Press Staff Correspondent)
New York, Jan. 22.—Open defiance of the New York Boxing Commission was threatened today by Tex Rickard as a result of a series of disagreements since he opened his new Garden.

For the first time since he took up the promoting business here, Rickard broke his poker face and scowled when told that the commission might announce after its meeting today that his license would be revoked if he talked to Jack Dempsey about a fight against Gene Tunney. "I haven't done any business with Dempsey or Tunney," he said, "but I will if I see a chance for a money making match. I can't fiddle around with dinky little matches. I've got to get big ones to make my investment good. Anyone knows that Dempsey will draw money any place."

A break in the friendly and business relations between Rickard and the commission had been imminent for some time since the commission got out of its role and started making matches.

The commission forced a poor card for the Christmas fund on Rickard and when the bills were paid Rickard found himself holding the bag for \$11,000, which is a sizable contribution for any charity.

Then he had a prospective money maker blown out from under him when the commission refused to allow Mickey Walker and Tommy Milligan to meet for the world's welterweight championship after considerable money had been spent in arranging and advertising the match. The attempt of the commission to force a light-heavyweight championship match between Paul Berlenbach and Mike McGigue on Rickard further peeved the promoter.

He insisted that the match would not draw much more than the percentage demanded by a champion and a challenger and he suggested that a match between Berlenbach and Eddie Hoffman, the California sailor, would be better for all concerned but the commission said not. The commission's rule against smoking during boxing matches also caused bad feeling. Rickard spent \$150,000 for machinery that would change the air in his Garden every two minutes but the commission said it had a rule against smoking and would stick by it.

Rickard insists that the anti-smoking regulations has caused a decrease in attendance of 20 per cent and he has the figures to back up his statement.

If he decides to make a match between Dempsey and Tunney in Jersey City, Rickard says the commission cannot stop him. He claims also that Wills ought to be on the ineligible list because he signed a contract with Dempsey and that Tunney is the only eligible heavy-weight in the class.

To Improve Highway No. 5
Mankato, Minn.—Representatives of 12 southern state counties met here yesterday to discuss improvement of highway number 5, principal artery from the Iowa boundary to the Twin Cities.

Springfield Creamery Prosperous
Springfield, Minn.—More than \$100,000 worth of business was done by the Springfield Creamery Association last year, according to the report at the annual meeting here.

N. D. Tax on Gasoline
Fargo, N. D.—An increase of one cent per gallon in the state gasoline tax will be asked of the 1927 North Dakota legislature, it was decided at the nineteenth annual meeting of the County Commissioners' Association, held here yesterday.

Holstein Breeders
St. Paul—The Holstein Breeders' Association of Minnesota will hold its annual meeting here today. W. S. Moscrip, Lake Elmo, nationally known Holstein judge, will speak.

State Poultry Show
Minneapolis—The Minnesota State Poultry Show opened yesterday with 2,000 birds on display.

Pine-t-Palm Tour
Owatonna, Minn.—Mayor James Adair will head a delegation which will act as a reception committee for the Pine-to-Palm tour from Canada to Mexico. The committee will escort the party from Fairbault to Owatonna.

200 Masons at Aberdeen
Aberdeen, S. D.—Approximately 200 Masons are here today attending the fifty-ninth reunion of the South Dakota consistory. The meeting closes tonight.

Barcelona's Precedure
Barcelona is the largest city of Spain and the chief commercial center.

PACIFIC COAST PRODUCES GOOD BOXERS

By HENRY L. FARRELL
(United Press Sports Editor)
New York, Jan. 22.—When boxing was restored to a legal standing in California, a great many New York managers and boxers hailed the far western state as a fine spot for pickings.

"They're used to the four-round racket out there and they'll be soft over a distance," they said and they flocked out to the new field.

If the coast boxers were all four-round fellows it didn't take them long to change to a distance game and now the easterners are finding that there are no bargains in California.

The coast now has two champions, Fidel Lebarba, the flyweight king, and Fod Morgan, junior lightweight champion.

Lebarba gave Frankie Genaro a fine pasting and Morgan beat Mike Ballerino for his title.

Jimmy McLarnin, another little fellow who is a fine prospect for the bantamweight championship, gave the late Pancho Villa the fight of his life and Charley Rosenberg, the bantam champion, received two fine pastings on a recent tour. His title was saved when he fouled Doc Snell only because smart management made the coast boy come in overweight.

California also sent east a fine heavyweight prospect in Eddie Hoffman who needs only experience to go a long way in the ranks with the big fellows. Before the boxing law was passed in California, coast boxers such as Dave Shade were big shots in New York and now that they don't have to leave home to work it stands to reason that California boxing will improve as it improved in New York under the Walker law.

The success of boxing in Tex Rickard's new \$5,000,000 Garden is sure to have a serious effect on outdoor boxing next summer.

Rickard has a ventilating system in the Garden that will make it possible to stage bouts all during the summer months with comfort for the spectators and fighters.

He claims that he can make the temperature lower in the Garden than it will be on hot nights in an outdoor arena and that he can seat more spectators than any of the other clubs who do not have a ball park.

Very little money was made by the promoters who had outdoor arenas last summer because good drawing cards were hard to arrange and because of the heavy overhead, the weather gamble and the difficulty in making perfect seating arrangements.

Rickard said recently he would have the boxing privilege again next summer at the Yankee Stadium and that he had only two big shots in mind for the ball park.

He intimated that Jack Dempsey would be one of the principals in one of them and that Paul Berlenbach would appear in the other.

Rickard probably can get any number of good cards now for the Garden as he has convinced the boxers that he has ceased to be a Santa Claus and if Rickard cannot pay them the prices they have been demanding, no other promoter can do it.

PRESBYTERIANS FORFEIT GAME TO EVANGELICALS

TEAM FAILS TO SHOW UP FOR
CONTEST AND DROPS GAME
TO OPPONENTS

FLYING ACES DEFEAT CHURCH
TEAM 23-12, BOTH SIDES SCOR-
ING HEAVILY LAST HALF

The Presbyterian Intermediate team had its lineup broken through illness and other causes last night, and could not muster enough men to play their game with the Evangelical team. By rules of the game, they forfeit the contest to their opponents, who were at the gym in full strength.

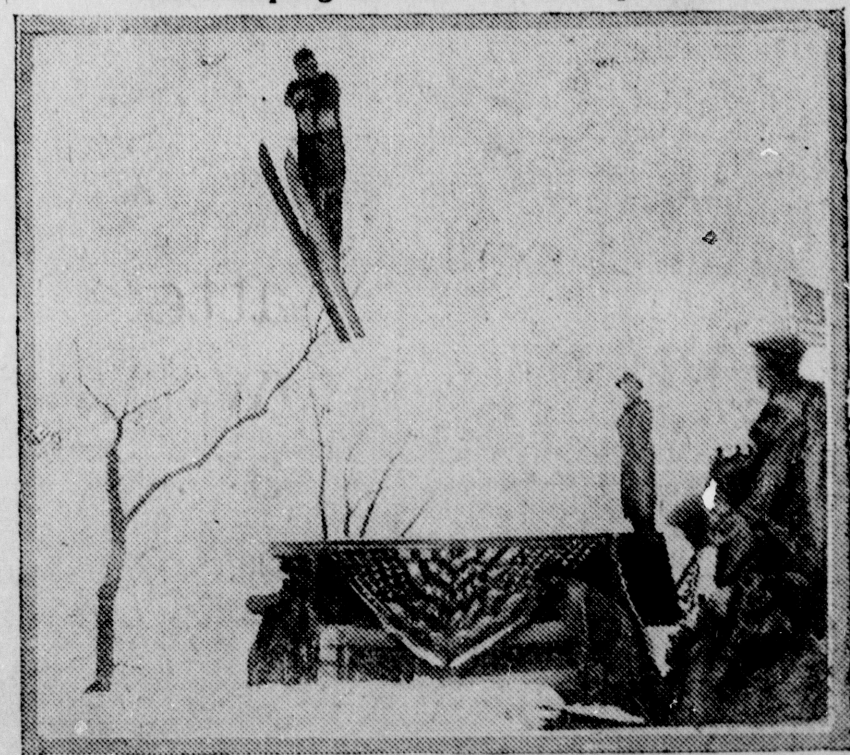

A team of near-greats was hastily assembled, dubbed the Flying Aces, and put on the floor to battle the Evangelicals. The Aces proved too much for the church team, and handed them a 23-12 set-back. The first half ended 5-0, with the Aces on the long end of the count, but in the second half both teams showed a lively spirit, and the game developed into a battle royal.

Englehart and Purdy kept their team in the thick of the fight, each scoring three goals in the final stanza, while Aro and Anderson with three each, and Lorenz with four, proved the chief artillery men for the Aces.

Tonight the Presbyterian Junior team meets the Methodist Juniors, for the only game of the evening. This will start at 7 o'clock.

4 Under Sentence for Grand Larceny
Blue Earth, Minn.—Three boys and one man were under sentence here today for grand larceny in the second degree for stealing from farmers. Ben Gehch, Harvey Taylor and Edward Arands, all under 21 and sons of prominent Elmore township farmers, were given indeterminate sentences at St. Cloud reformatory. Barney Smith, 38, was sentenced to Stillwater. Arands' sentence was suspended.

Ole Jansen, Showing Perfect Form, Winner of Ski-Jumping Contest in Metropolitan District

Jansen, Norway's great skier, demonstrated his skill when he won the Metropolitan skiing championship for the second successive year at Patterson, N. J. He defeated a field of 24, which included John Carleton of Manchester, N. H., former Dartmouth star. Jansen's longest single jump was 244 meters, or a little more than 78 feet. Jansen's control was almost perfect and he would have swept far ahead of his rivals with a better incline, for he has often cleared twice the distance with which he was credited in the championship.

SENATORS AND PIRATES CLASH IN PRELIMINARY

FANS WILL SEE SOME FAST
WORK BY GIRLS' TEAMS
TOMORROW NIGHT

DULUTH TEAM BOASTS RUNNING
GUARD SCORING 4 TO 8
BASKETS PER GAME

For the third time this season, the Senators and Pirates will take the floor tomorrow night in the preliminary for the Rainbows-Duluth game. In both games played between these two teams so far this year, the Senators have emerged wearing the wreath of victory.

The girls are tuned high for the coming game, the Pirates going into their rehearsals with a never-say-die determination. Some fast playing is promised. Reuter, Reggs and Michael bid fair to keep the Senators at the top of the heap, while Turner, Molstad and Trask, with their teammates, are vowing vengeance. The first clash resulted in a score of 9-6, while the second was a 13-10 count, both games going to the Senators.

In Johnny Benda the fans will see one of the cleverest running guards ever seen in this section. He plays guard for the Duluth Independents, and has a habit of dropping in from four to eight baskets per game. Whether he will be able to do this against the steady guarding of Orth, Heikkinen and Dieckhaus will be one of the interesting questions that will be settled tomorrow night.

The Rainbows have the weak spots all strengthened, and are ready for their foes. The first game starts at 7:45 o'clock, with the starting whistle of the feature game set to blow at 8:30 o'clock.

RESIDENCE FIRE DRIVES PEOPLE TO THE STREET

Minneapolis, Minn., Jan. 22.—Ten persons were driven to the street in night clothing early today when fire broke out in a residence here. None was reported suffering from effects of the experience.

Belief Carried Too Far
In Florida a man went crazy. Thought he was the devil. Men shouldn't always believe what their wives say about them.—Exchange.

By Way of Argument
A visitor at a certain fishing village asked the parson what was the principal diet of the villagers. "Fish, mostly," said the vicar. "But I thought fish was a brain food, and these are the most unintelligent folk I ever saw," remarked the tourist. "Well," replied the parson, "just think what they would be like if they didn't eat fish!"

Effort Makes Success
Many people want to do things that are entirely worthy and approvable, but do not know how to accomplish them. They lack the power of making effort, which is the key to the whole matter. To try, and fail, is better than not to have tried at all.—Grit.

How It's Worked
"Yes, it is understood. I take the hat for 50 francs. You send me an invoice for my husband at 100 francs and another to show my friends at 300 francs!"—Ruy Blas, Paris.

Sensible Shelves
If shelves are necessary in your kitchen, have them placed low enough to be within easy reach. Then useless things will not be placed there and allowed to remain.

PEOPLES SECOND HAND STORE

25 A St. N. E.

Where are the people who used to get up early in the morning to attend a Clothing Sale?

The alarm clocks have it much easier now—for instead of getting up at daybreak to attend a January or July Clearance—the wise man winks one eye and turns over for 40 winks again.

He knows that at the John M. Bye Clothing Co.'s store in January, February, March, April, May, June, July, August, September, October, November and December he will receive the same values—and better values than the sale store talks so much about in January and July.

He knows that a clothing "give away" now is a dead give away of tremendously high prices the other 10 months of selling.

You'll like our No Sale, Low Profit Policy.

Try it!

DAILY DISPATCH WANTS Bring QUICK RESULTS

Just a Brave Girl Swimming the English Channel

OUT among the choppy waves and treacherous currents of the English Channel, this girl not long ago pluckily fought her way while all the world watched and waited.

A UNITED PRESS reporter on the French side watched her dive smoothly into the rough sea. A UNITED PRESS reporter waited in England for her arrival. A UNITED PRESS reporter sailed on the tug which followed her on her way. A UNITED PRESS reporter in a power-boat circled about her as she swam.

THE transatlantic cables carried the UNITED PRESS story to New York. In America, hundreds of telegraph operators using 85,000 miles of leased wires sent or received the news in hundreds of newspaper offices so that 12,000,000 readers might read.

REMEMBER the word "UNITED" and look for it when you read your newspaper. It is just as much a trade-mark as the symbols on the food you buy, the motor car you drive, the clothes you wear.

"BY UNITED PRESS" is the sign of a superior newspaper because it designates dispatches which are accurate, reliable, authoritative and which are actually "the latest news"—transmitted to this newspaper with miraculous speed.

Read It In The Brainerd Daily Dispatch

DAIRYMAN'S CONVENTION

Closing Session Adopts Resolutions
Thanking Chamber of Commerce,
Lions And Rotary Clubs

COMMEND 3 LOCAL PAPERS

Unselfish Service Rendered in Opening
Their Columns And Giving
Much Valuable Publicity

The Minnesota State Dairyman's association, at the close of their three days convention at Brainerd, adopted these resolutions:

We express our sincere thanks to the Chamber of Commerce and its officials, to the Lions club and to the Rotary club, all of whom have materially assisted in publicity work. In supplying copies of the program, in interesting the local business men and the people of the surrounding country in this annual meeting; and especially do we appreciate the courtesy of the Chamber of Commerce in extending to us the use of their splendid rooms for our meeting. We wish to commend the unselfish service rendered by the Brainerd Dispatch, the Brainerd Tribune and the Brainerd Journal Press in opening their columns, giving so freely much valuable space in the way of publicity in advance of our meeting, as well as in reports of the proceedings, including extra copies of addresses and papers; and we would not overlook the efficient and valuable service rendered by John A. Hoffbauer, chairman of publicity of the Brainerd Chamber of Commerce. We have been splendidly entertained by the young ladies who have so kindly assisted us in our opening exercises, and wish to thank them heartily for the fine musical selections rendered.

We commend the official acts of executive board in the conduct of the business of this association during the past year, especially the substantial financial support rendered to Dairy Calf club work, feeling that this activity tends toward better understanding among junior members of our association of this great industry.

We are firmly convinced of the efficacy of modern methods employed in determining the presence of bovine tuberculosis, and feel that the work so well begun in our state should be continued until this disease shall be eradicated from the herds in Minnesota.

We appreciate and heartily commend the service rendered to Dairy men and Dairy Manufacturing Organizations of our state by the force of our dairy and food department, and respectfully request of commissioner N. J. Holmberg a continuance of this work.

A debt of gratitude is due the officers and members of the Minnesota Creamery Operators and Managers association for their consistent loyalty to the dairy industry and the efficient service rendered in making it possible to bring to the attention of the people of our land a supreme quality of butter known to have been manufactured in Minnesota creameries, and heartily commend them for their desire to maintain, and success in maintaining, that quality.

Unquestionably one of the great weaknesses in dairy activity in years gone by has been the lack of any active organization having for its object the furnishing of publicity emphasizing the benefits to be derived by the human family in an increased consumption of all forms of dairy products. In this connection we wish especially to commend the invaluable work of the National Dairy Council and to urge upon all dairymen and dairy organizations the advisability, in fact the necessity, of giving expression to their appreciation by tendering financial support to this great movement.

The National Dairy Union is the one organization on which the dairy men of the land have depended and without disappointment, for a period of much more than a score of years to safeguard their interests in the matter of national dairy legislation, and we therefore urge materially increased financial support to this organization in order that our interests may be protected in the future as they have been in the past at the national capital.

Respectfully submitted,
GEORGE A. MILLER,
Chairman.

O. E. STRAND,
CHARLES KARGEL,
P. B. ANDERSON,
ANDREW FRENCH.

The Tuberculosis Clinic

In our work of taking care of and treating tuberculous conditions, nothing is of more importance than our clinics held in the various towns for the discovery of tuberculous cases. The early diagnosis of this disease is more than half the fight, every case of tuberculosis found in the incipient stage may be told that they may be cured by coming to the sanatorium at once, provided they will come with the intention of staying until the physician in charge tells them that they are cured and ready to go home.

The stay of the patient in the institution is largely educational. They are taught how to care for themselves and how to protect others from the disease. Every patient that spends sufficient time in an institution to learn the routine taught there should be a potential aid to friends, relatives, and immediate family, in the fight against tuberculosis.

other bad habit we have. If we would follow the sanatorium instructions with regard to properly ventilating our sleeping quarters, regular habits of sleeping and eating, keeping the body clean and properly clothed, and properly caring for the teeth, the tuberculosis death rate per hundred thousand would soon diminish to a very small figure.

Your dentist and your family doctor are your best friends; go to see them often and you will be saved untold suffering. Every person should have at least one careful examination by the family doctor at least once a year, even though you may feel that you are in perfect health. If you feel under par physically, go often to your family physician, and find out the cause of the trouble.

The sanatorium care in Minnesota has already cut the death rate to less than one half of what it was ten years ago, which shows the wonderful work done by the sanatoria in Minnesota. You have only to take advantage of the facilities offered by attending the clinics which are held expressly for your own benefit.

The writer takes this occasion to thank the members of the medical profession of both Aitkin and Crow Wing counties for their hearty cooperation in our work here, the press for their courtesy to our articles and the dentists for their cooperation; we wish to thank all who have aided us in any way whatsoever to make our work a success and our lives pleasant.

By Ernest L. Strader, M. D. Superintendent, Deerwood Sanatorium, Deerwood, Minn.

Nab Little ralls Man For Abduction of Girl

George Gravel, Little Falls, was arrested late yesterday in Minneapolis for Morrison county authorities upon complaint made by the father of a 16-year-old girl that he picked her up on the way to school Tuesday morning near Little Falls and carried her to accompany him in his auto to the Cities.

The girl's 18-year-old brother went with them, according to authorities. Both were reported to be on their way to school at Belle Prairie when they entered Gravel's car.

Gravel was arrested almost immediately upon his arrival in Minneapolis and Deputy Sheriff Roderick Felix left today to take him back to Little Falls.—St. Cloud Daily Journal Press.

IN MUNICIPAL COURT

Ole Anderson, of Pequot, Bound Over to District Court For Abandonment

Ole Anderson, of Pequot, who was given a preliminary hearing on Tuesday in municipal court for abandonment of a child, and whose case was continued to today for examination, was bound over to await action of the district court, bail being fixed at \$2,000.

Mr. Anderson was brought here from near Blackduck, and is being represented by Attorney Basil Heath, County Attorney Walter Wieland is representing the state.

INSPIRING TALK BY JUDGE BALDWIN

Minneapolis Jurist Brings Message to Local Lodge, B. P. O. E., No. 615

CANDIDATES INITIATED

Report of Building Committee Shows Progress Made For New Home

Brainerd lodge, B. P. O. E., held a large and enthusiastic meeting last night, welcoming the District Deputy Grand Exalted Ruler for Minnesota North, Judge Mathias Baldwin of Minneapolis, who made his official visit to the local lodge.

Judge Baldwin delivered an inspiring address to the assembled Elks, emphasizing the idea that every organization should be of service to the community in which it lives. He congratulated the local unit for being a civic organization that is constantly trying to work for the welfare of the community.

A class of candidates was initiated, and the house and social committee served a lunch following the meeting. A report of the building committee showed that the chief work at present is in getting architects for plans of the building.

New Motor Vehicle Taxes In Effect January 1st

Owners of passenger automobiles will find their motor vehicle taxes somewhat lower this coming year. The new Minnesota law which went into effect January 1st makes a basic rate of 2.4 per cent, instead of the 2.75 per cent which has prevailed for two years. A similar reduction is in store for owners of older cars taking the minimum rate. The minimum tax for light cars will be ten dollars instead of twelve, and for cars weighing more than two thousand pounds, twelve dollars and a half instead of fifteen. Delivery trucks, however, are raised to five per cent of their value. The reduction on passenger cars was made to offset in part the gasoline tax of two cents a gallon. With the gasoline tax in effect for all of 1926, however, the total revenue for state highways should not show any decrease. Applications for licenses may be made any time now. Taxes become delinquent and penalties will begin to accrue after February 15th.

The new "A" and "B" tags for passenger cars will be white numbers on a dark blue background. Applicants must send their 1925 license certificates, according to Secretary of State Luke John. New 1926 licenses cannot be issued without them.

The new law hits many motor truck owners for heavier taxes. The "T" class no longer will indicate trucks with minimum rating, but will include only trucks carrying agricultural and dairy products from the point of production, practically

Saturday Another Big Day

All that has been advertised will be on sale Saturday together with many added specials. And many coats and dresses will have additional reductions. Join the sale crowds on Saturday.

A Table of Laces, Embroideries and Trimmings Saturday

Something new for Saturday shoppers. Two large tables of them. And it is very opportune. You'll find these to be just what you'll want for spring sewing. HALF PRICE AND LESS. Come--See--Select.

Change Ownership Sale **H. F. Michael Co.** We are Selling Out

confining this class to farmers' trucks and paying 2.4 per cent.

All delivery trucks, which have been paying 2.75 per cent, will pay 5 per cent. This includes trucks used for hire within the city, also trucks used in "the regular or habitual collection or delivery of things owned by the carrier or upon which the carrier performs work or service." These trucks will carry the "X" tag. The "Y" class is a new one, including not only commercial freighters but all used in "carrying on a general transportation business for hire," and this class pays 10 per cent of the value.

Full Gospel Y. P. Meeting
Young Peoples society of the Full Gospel Assembly 14 A street N. E., meets tonight at 7:45 o'clock. Special program.
Song service in charge of Miss Agnes Nelson.
Special songs by Miss Mary Raines and Mrs. Walter Spencer.
Message by Mr. Austin and Mr. Freeman.
Everybody welcome, both young and old.
Mrs. Avery Cass, superintendent.

Ready Money---When It's Time to Pay

Taxes and Insurance Premiums must be paid regularly, but paying them with current funds is often difficult if not impossible.

A better way is to accumulate tax and insurance money in a Savings Account at the Citizens State Bank with deposits made throughout the year.

When the time comes to pay, the money will be ready and waiting. Try this method and learn for yourself how much better it is.

CITIZENS STATE BANK OF BRAINERD

Oldest State Bank in Crow Wing County

LOWDEN IS CENTRAL FIGURE IN THE MIDWEST

ILLINOIS AGRICULTURAL ASSOCIATION HAS SOLID BACKING FOR HIM

THEY HOPE TO FIND IN HIM AN
ENERGETIC
LEADER

Urbana, Ill., Jan. 22.—(UP)—Opponents of the administration's agricultural policy at the Illinois Agricultural Association meeting in session here, today expressed the hope that they will find in former Governor Frank O. Lowden, a leader.

Lowden was scheduled to speak at 1 P. M. and much interest was manifested in what he may have to say.

Reaction toward Sec. Jardine's address yesterday was beginning to show today with the more conservative farmers keeping silent and the radicals criticizing his policy.

Opinion at the convention seemed to tend toward almost a solid backing from Lowden.

LIVESTOCK, PRODUCE GRAIN AND BONDS

CHICAGO LIVESTOCK

Chicago, Jan. 22.—(By U. S. B. A.)—CATTLE—Receipts, 3,000. Market: Beef steers and she stock generally steady; quality plain; most fat steers \$8.50@9.50; best long yearlings \$10.85; stockers and feeders very steady; bulls steady to weak; vealers 25@50c lower; mostly 50c lower; bulk \$12@13 to packers, few \$13.50; outsiders paying upward to \$14 for odd lots.

SHEEP—Receipts, 8,000. Market: All classes opened steady; several doubles fat lambs to shippers; choice feeding lambs \$15@15.25; odd lots fat ewes \$8.50@9.

DOUGLAS FAIRBANKS in "DON Q. SON OF ZORRO"

His New Photoplay, "Don Q." Full of Spectacular Feats and Swift Action

In his current picture, "Don Q. Son of Zorro," now showing at the New Park theatre, Douglas Fairbanks "out-stunts" himself. In other words, he performs more spectacular feats in this production than in any other feature he has ever made. Among the tricks he accomplished are the following:

Capture of an enraged bull in the

streets of a Spanish city, by means of a red cape and his trusty whip. Other acts with this whip include breaking bottles and cutting paper in two; flicking cigarettes out of one villain's mouth; cutting the tassel off another villain's cap; using the whip as a swing to mount high walls; tripping and binding a soldier; cutting the letter "Q" on the villain's face; disarming a soldier; catching an officer of high rank and low morals around the neck and pulling him down; finally, cutting the arch villain to ribbons with the lash.

Northern, \$1.63½@1.75½. No. 2 Northern, \$1.63½@1.65½. No. 3 Dark Northern, \$1.54½@1.72½. No. 3 Northern, \$1.54½@1.63½.

CORN—No. 3 Yellow, 73@80c. No. 4 Yellow, 69@72c; No. 4 Yellow, to arrive, 68c. No. 5 Yellow, 62@65c. No. 3 Mixed, 69@72c. No. 4 Mixed, 64@67c; No. 4 Mixed, to arrive, 63c. No. 5 Mixed, 61@62c. No. 6 Mixed, 58@59c.

OATS—No. 2 White, 38½@39½c. No. 3 White, 38½@38¾c; No. 3 White, to arrive, 37½c. No. 4 White, 35½@37½c.

BARLEY—Choice to fancy, 63@65c; medium to good, 59@62c; lower grades, 53@58c.

RYE—No. 2, 95@96c; No. 2, to arrive, 95c.

FLAXSEED—No. 1, \$2.37½@2.42½; No. 1, to arrive, \$2.37½.

WHEAT FUTURES DECLINE

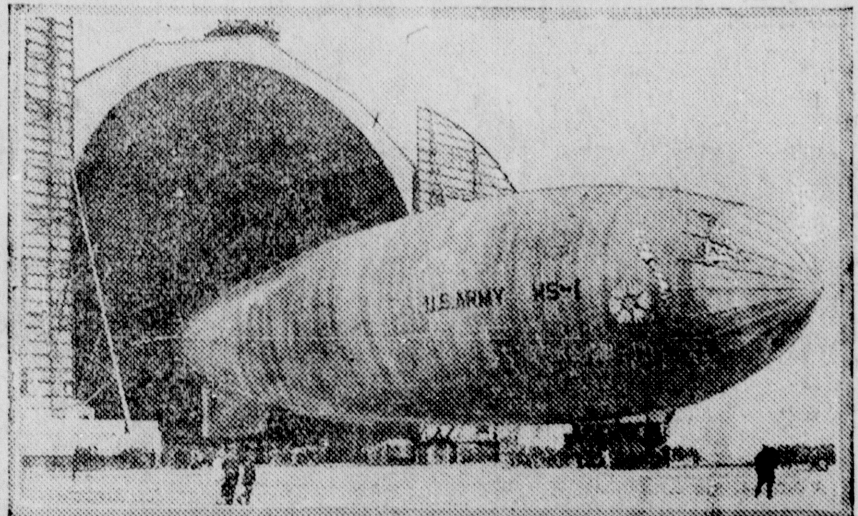

Minneapolis, Jan. 22.—(UP)—Wheat futures declined three cents within one minute at one stage of trading on the Minneapolis Board of Trade today. The drop was 3½c from the high point of the day. Poor demand was a factor in the drop.

WALL STREET IN BEARISH ROLL

New York, Jan. 22.—(UP)—Wall street developed effective resistance to selling pressure despite the conviction prevailing in speculative circles that prices were headed downward. The bearishness caused professional operators to continue active on the side of the decline.

Their offerings were absorbed, however, in good style and prices worked generally higher in the afternoon. Constructive sentiment derived important stimulus from the outlook for early resumption of negotiations relative to settlement of the anthracite

U. S. Army's RS-1, Largest Semi-Rigid Dirigible In World, Leaving On Successful Maiden Flight

This photograph was taken as the U. S. Army dirigible RS-1, the largest semi-rigid type dirigible in the world, was leaving its hangar at Scott Field for its trial flight. The RS-1 is three times larger than

any similar airship in the country, although less than half the size of the giant Los Angeles. The RS-1 will be stationed permanently at Scott Field where it was under construction for three years.

Advertising Pays

Advertising pays to a startling degree. The wares of the merchant who fails to advertise lie on his shelves collecting dust, consuming his capital to ultimate bankruptcy—likewise the man who fails to draw attention to himself by using his brain power is allowing his intellectual wares to become cobwebbed with uselessness, and is headed for mental bankruptcy.—Cleveland Trust Monthly.

Illuminating Fluids

Different fluids were used in the old type of lamp at different periods. Fish oil, including crude, heavy whale oil, was employed, and later lard oil was substituted in certain of these lamps. The lamp-burning petroleum and kerosene came in considerably later.

"Joan of the Tower"

Joan, queen of Scotland, was called "Joan of the Tower," because she was born in the Tower of London. She was the wife of King David, to whom she was married when she was only eight.

Screen Version Of "East Lynne" Surpasses Play

"East Lynne" on the screen is even better than the famous old play on the stage!

That is a sweeping assertion, but one needs only to see this William Fox production now showing at the Lyceum theatre to realize that it is not overdrawn.

Heading this cast are Edmund Lowe and Alva Rubens, as Sir Archibald Carlyle and Lady Isabel. Both stars measure up to the highest traditions of these famous dramatic roles of the stage—indeed, as they have done then for the screen, they rank with the best individual achievements in the history of pictures.

Ben Lyon, Mary Astor With Noted Racers in "The Pace That Thrills"

One of the world's most famous automobile race tracks—the Automa Speedway—was turned into a motion picture location during the filming of the most stirring scenes in First National's "The Pace That Thrills," in which Ben Lyon and Mary Astor will be co-featured Saturday only at the Lyceum theatre.

Athletic Advantages

"I'm sure Bob's training is going to help a lot," said the prospective bride. "It has taught him to like a cold bath mornings." "Of what advantage is that?" inquired her chum. "Why, any one who likes things cold in the morning won't mind getting up and looking after the fires."—Boston Transcript.

Possibility

Once there was much talk of a truth serum, or drug. Nothing is said about it any more. Perhaps it worked.—Tolledo Blade.

Punctuality Scores

People spend the time you make them wait in summing up your faults; so don't be late.—Bell Telephone News.

Skinny Men Glad

Doctors and good pharmacists know that Cod Liver Oil is full of vitamins that make flesh, create appetite, builds up the power to resist disease and puts good solid flesh on skinny men and women.

But it's horrible tasting stuff and every day fewer people are taking it, for doctors are prescribing and people are fast learning that they can get better results with McCoy's Cod Liver Oil Compound Tablets, which H. P. Dunn, Johnson's Pharmacy and druggists all over the country are having a tremendous demand for.

One woman gained 19 pounds in 22 days and if any skinny man or woman can't put on 5 pounds in 30 days, your druggist is authorized to refund the purchase price.

Be sure and get McCoy's, the original and genuine Cod Liver Oil Compound Tablets—60 tablets—60 cents.

Stop Constipation!

Nujol relieves and prevents constipation. It is a bowel lubricant—not a laxative—so cannot gripe. Gentle, safe and effective. No treatment like Nujol. Try it today.
